-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2653

1. Claim 5 is objected to because of the following informalities: in line 4, "planes" should be changed to --plane--. Appropriate correction is required.
2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 2, 4, 5, 7, 8, 11, 12, 14, 15, 17, 18, 19, 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Chang et al (US Pat 6122144). Chang et al shows a magnetic head assembly for use in a disk drive in figures 1-3, 14, 25 and 26 that has: a write head with ferromagnetic first pole piece 216 with a yoke portion and a pole tip portion 306; second pole piece layer 220 with a yoke portion that connects at the back gap portion with the yoke of the first pole piece 216 and a pole tip portion 246 forming a portion of the ABS; a write gap layer 222 located between the pole tip portions 246/306; an insulation stack 208/210/212 for coils 206; the pole tip portion 306 of the first pole piece having non-overlapping first and second components wherein the first component forms a portion of the ABS (the tapered structure defined by reference numerals 306/308/310) and a second component recessed from the ABS (the narrowed, reduced cross section portion defined by reference numerals 328/330 in figure 26) wherein the second component (reduced cross section portion) has a width which is less than the width of the first component and is entirely within a region which is recessed from the ABS. A third component (the portion shown near reference numeral 216 in figure 26) is connected to the first component through the second component wherein the width of the third component is

Art Unit: 2653

greater than the width of the second component; and a read sensor 226 (Figure 14) with shields 234/232 and read gaps 228/230.

4. Claims 3, 6, 9, 10, 13, 16 are allowable over the art of record.
5. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.
6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
